- Kadalyst's Care Management solution can be deployed

HARNESS THE POWER OF PREDICTIVE ANALYTICS WITH ANY FULLY-INSURED GROUP

DO MORE THAN REVIEW DATA

CREATE THE IMPACT YOUR CLIENTS NEED WITH PROACTIVE CARE MANAGEMENT

GOALS

- Control rising medical costs
- Decrease chronic conditions
- Increase participation in wellness program

CHALLENGES

- Multiple locations
- Multiple languages
- No previous health improvement strategy or benchmarking data was available

SOLUTIONS

- Predictive health analytics
- Benefit education program
- Clinical health coaching
- Outcomes-based wellness program tied to the premium contribution

CASE STUDY: CLAIMS PER HEALTH PLAN MEMBER PER YEAR

Actual vs. Projected

**After implementing the Proactive Care Management Program, hospitalizations also decreased 15.8% over two years.*

SERVICE GUARANTEE

We establish mutually agreed upon performance metrics and milestones for a cohort group, that lead to a healthier workforce and lower out-of-pocket insurance costs.
